**DUI POLARTEC  
POWERSTRETCH  
PRO AND  
POWERSTRETCH  
BOOTS**

We've featured drysuit maker DUI's Polartec PowerStretch undergarment before, but the new Pro version has been designed with a hard outer shell to give this jumpsuit better durability. What hasn't changed is the soft, plush and stretchy quality of the material. Highly breathable, it wicks away moisture when you sweat and provides a snug fit without limiting range of motion. We put the jumpsuit on and did deep knee bends, toe

touches and even managed a few Tom Cruise jumping jacks without any binding. You'll like DUI's attention to detail too: The front zipper is a durable recycled coil to keep water out, there are two zippered hip pockets, a zippered pocket on the chest, thumb loops and ankle stirrups. And when your day of diving is done, just toss it in the washing machine. The Pro comes in black only, but there are five men's and six women's sizes (if you can't get a good fit, custom sizing is available). DUI also includes a good-looking DiveWear tote bag. You might as well complete your Polartec

ensemble with DUI's PowerStretch boots, made from the same material as the Pro jumpsuit, in unisex sizes from XS to XXL. **\$598 for the PowerStretch Pro; \$798 for custom sizes; \$94 for the boots; [dUI-online.com](http://dUI-online.com)**

**RIFFE STUBBY  
TERMINATOR**

Strap on Riffe's compact Stubby Terminator knife and rest easy that you'll be able to free yourself in case of entanglement, plus have a handy tool for cutting just about anything, from monofilament to thick anchor lines to plastic entrapping a marine mammal. The Stubby Terminator's stiletto blade — made from stainless steel and Teflon-coated to prevent rusting — offers

a wavy serrated edge on one side (perfect for sawing jobs) and a plain edge on the other (ideal for slicing through materials). The knife comes with an ample blade guard for a safe and secure grip, and the handy elastic lanyard can be stretched over the sheath for an additional measure of safety. The setup also includes rubber leg straps and forearm stretch straps, so you can place it where you prefer. **\$76; [speargun.com](http://speargun.com) SD**
